Rules for flowers

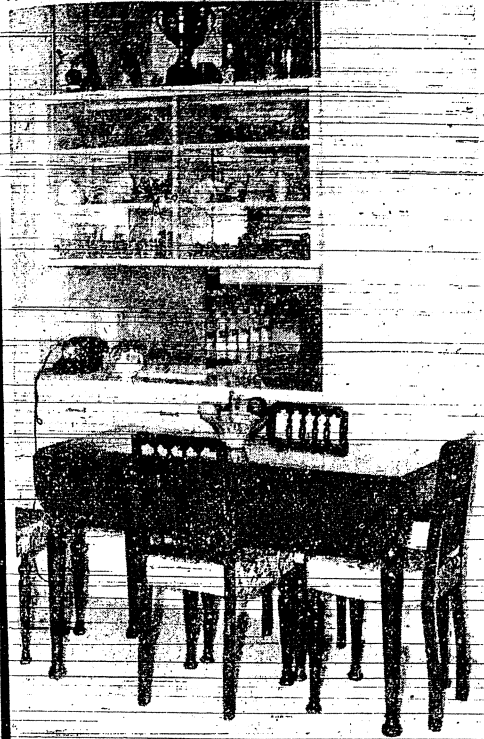

THERE is a definite code to follow with gifts of flowers. Flowers must be fresh although most presentation floral tributes are to the bride, there are important times before the presentation when flowers must be kept fresh. The member light will not cause flowers to wilt, but they will.

Big party

For a reception, an at home, dance or formal party, the services of a florist are usually employed. But it is an important feature, and they offer or send flowers. At such functions the hostess does not want flowers nor is the presentation with them. Shoulders sprays of red flowers are fast going out

GRACIOUS LIVING

New luxury penthouse has fine view

FURNITURE in the living room of the Torbreck home of Mr. and Mrs. N. R. Peterson was all made to order to fit the apartment. It is made of beautiful, grained cedar. Lounge and dining suite chairs are upholstered in Italian heavy embossed satin which has a cream pattern on a grey ground.

A PENTHOUSE unit of Torbreck's garden block at Highgate Hill is an apartment that is a model of space-saving ingenuity. In addition to its convenient site, the unit gives sweeping views of the city and year-round breezes.

It is the home of Mr. and Mrs. N. R. Peterson.

Situated on the seventh or top floor of the block, the apartment's front door opens off a balcony serving two units.

A passage floored in handsome Italian terrazzo leads to the big living room, with a doorway in the right hand wall of the passage giving on to the kitchen.

Grey walls

Like most rooms of the apartment, the living area has walls of whispery grey very pale grey carpet and off-white ceiling.

The small extra compact kitchen is finished in grey and yellow floor tile-tiled floor through its ceiling-high cupboard to its laminated plastic bench-tops and tiled splashboards.

The sink and grey tiled utility room combines the functions of bathroom and laundry—all in an area no bigger than the normal household bathroom.

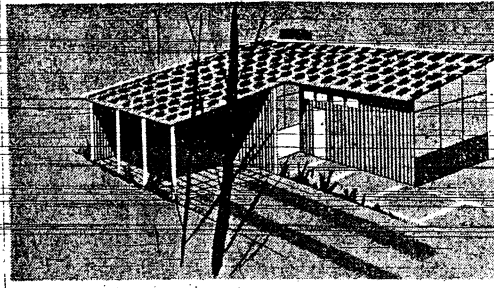

It includes a gas-fired drying cupboard to replace the clothes-line or rotary hoist of a normal backyard.

The main bedroom, which opens on to the balcony, has a suite of cedar with bedspread of Italian damask. The second bedroom has a maple suite, and both have a full wall of built-in cupboards.

GLASS WALL, 20ft. long, divides the living room from the balcony. The glass is hung with full-length curtains of gold satin. The balcony runs the full length of the living room, but arches to the main bedroom, and a brick end wall to separate it from the next unit.
