Torbreck's talk with R-Murray

THE £5 million capital Reid-Murray group is negotiating to buy Torbreck Pty., Ltd.

Torbreck Pty. Ltd. is the contracting company building a £1 million block of 160 home units at Highgate Hill, Brisbane.

It plans to build 25 storey blocks on land owned at Burreigh and Surfers Paradise.

Negotiations were confirmed yesterday by Reid Murray Holdings Ltd. assistant managing director (Mr. Ken Wilkinson) and Torbreck chairman (Mr. W. Betts).

The negotiations included talks between Torbreck principals and Reid Murray managing director (Mr. O'Grady) in Brisbane recently.

Fast growth

Reid Murray has had a spectacular career since it was formed by amalgamation of the soft-goods and retail houses two years ago.

It has absorbed 11 companies ranging from retailers and TV manufacturers to construction companies and land subdivision firms.

Mr. Wilkinson said after a Reid-Murray board meeting in Melbourne yesterday: "We have had certain discussions with Torbreck. I'm not prepared to go further than that."

Mr. Betts said he could not say any more than that negotiations were taking place.

Shareholders in Torbreck Home Units Pty. Ltd. would not be affected as the negotiations concerned the contracting company.

The two were distinct companies, and the latter company covered owners of the units.

Whaler buys grazing land

Whale Industries Ltd. has bought Gurley, a 33,000 acre grazing property near Moree.

Directors reported the purchase by a wholly owned subsidiary.

The Moreton Island whalers expect to begin their season's whaling operations on June 8.

Using three chasers the company hopes to catch its quota of 660 whales in about 65 days.

Last season the quota of 600 whales was taken in 65 days despite periods of bad weather.

TRADE AND FINANCE QUEENSLAND Can Co. Ltd. has bought a factory at son-for-its expanding transparent paper and po film converting division.

Production with new machinery will begin on July 1.

The factory, occupied by B.A.L.M. Paints before it built a new plant, has more than 12,000 square feet space.

Following purchase of the factory in Memorial Drive, Tennyson, for £21,500, Queensland Can is installing full air conditioning.

Four plants

New plant will include the most modern cellophane, polythene, paper and foil printing and converting plant.

Queensland Can chairman and managing director (Mr. A. Pettiford) said yesterday that initially 30 to 35 employees would staff the factory.

It would be developed to cover aluminium foil and laminations of all sections of polythene, papers, and foils.

Film packaging sections at present located at the Moorooka plant would be concentrated at Tennyson.

With the new move, Queensland Can Co. will be operating the major can factory at West End, a cardboard container plant at Moorooka, the film unit at Tennyson, and the can subsidiary in Townsville.
